

## Safety Data Sheet

Reference No. 1020

Issue: 3rd March 1999  
Revision: 1st April 2025

### 1. Chemical product and company identification

Product name	PACKTEST Fluoride(Free) Model : WAK-F
Company name	KYORITSU CHEMICAL-CHECK Lab., Corp.
Address	1-18-2, Hakusan, Midori-ku, Yokohama, Kanagawa 226-0006, Japan
Tel	+81-45-482-6937
Fax	+81-45-507-3418

Recommended uses and restrictions    Reagent for water quality measurement

### 2. Hazards identification

[GHS Classification]

Physical hazards:	Classification not possible	(no data for GHS classification available)
Health hazards:		
Respiratory or skin sensitization:	Category 1 (skin)	
For those health hazards not listed above are not classified or classification not possible		(no data for GHS classification available)
Environmental hazards:	Classification not possible	(no data for GHS classification available)

[GHS labeling elements]

[Signal word]

Warning

[Hazard statements]

May cause an allergic skin reaction.

[Precautionary statements]

Keep out of reach of children and store in the dry and dark place at room temperature.  
 Carefully read instructions before use and do not use for other purposes.  
 Wear personal protective equipment if necessary.  
 Do not inhale reagents.  
 Wash contaminated clothing.  
 Wash hands well before and after handling.  
 Avoid release to the environment.

### 3. Composition/ information on ingredients

Discrimination of single substance or mixture: Mixture

Reagent name	K-1 reagent		
	Chemical name	Sulfanilic Acid	Other (not regulated)
Content	1 – 4.9 %	1 – 4.9 %	90 – 99 %
Chemical formula	C <sub>6</sub> H <sub>7</sub> NO <sub>3</sub> S	-	(C <sub>2</sub> H <sub>4</sub> ) <sub>n</sub>
METI No. (reference number under CSCL in Japan)	(3)-1971	-	(6)-1
CAS No.	121-57-3	-	9002-88-4

### 4. First-aid measures

If reagents or test solutions;

Enter in eyes: Immediately rinse with water.

Contact with skin: Immediately wash out contaminated site with plenty of water.

Enter into mouth: Immediately rinse mouth with plenty of water.

If ingested or in case any symptoms appear after above measures, immediately get medical advice or treatment.

### 5. Fire-fighting measures

Extinguishing methods: Cut off ignition sources and extinct by a suitable media.

Suitable extinguishing media: Water (mist), powder, carbon dioxide, dry sand.

### 6. Accidental release measures

In case of outdoor use: Avoid spill of reagents and waste solutions.

In case of indoor use: If spilled on a table or floor, wipe off immediately spilled reagents and dispose of them.

### 7. Handling and storage

Handling: Care should be made so that reagents and test solutions will not contact with eyes and skin and to avoid ingestion.

Especially for outdoor use, ensure to bring back reagents, waste solutions after the measurement and used containers.

Storage: Avoid direct sunlight and store in a well-ventilated, dry and dark place at room temperature.

### 8. Exposure controls and personal protection

Administrative control level

Working environment standard: Not established

Occupational exposure limits

Japan Society for Occupational health: Not established

ACGIH (TLVs): Not established

OSHA (PEL): Not established

Protective equipment: Recommended to wear protective glasses and gloves

## 9. Physical and chemical properties

Physical state: Tube containing powder reagent  
1.1 g x 50 tubes/kit, (5 tubes per one aluminum laminated packaging)  
Color: Purple (powder), semi-transparent (polyethylene tube)  
Odor: Slightly pungent odor  
pH: 5

Melting point, boiling point, flash point, ignition point, lower explosion limit, vapor pressure, density, relative density, solubility, Pow, kinetic viscosity: not available as a mixture

## 10. Stability and reactivity

Avoid leaving in a place where high temperature, humid or under direct sunlight. Stable under normal use conditions and no dangerous reactions under specific conditions are expected. No information on hazardous decomposition product is available.

## 11. Toxicological information

No data on mixture is available. Data on each substance are shown below.

Polyethylene:

Acute toxicity: Oral: Rat-LD<sub>50</sub> > 7,950 mg/kg (used 7,950 mg/kg for the calculation of ATEmix below)

Carcinogenicity: IARC Group 3 (not classifiable as to carcinogenicity to humans).

Other data: Not available

GHS classifications as a mixture are shown below.

[Respiratory or skin sensitization]

Skin:

Classified as Category 1 (Warning, May cause an allergic skin reaction.) because it contains more than 1% of the ingredient of Category 1.

[Acute toxicity (oral, dermal, inhalation)], [Skin corrosion/ irritation], [Serious eye damage/ eye irritation], [Germ cell mutagenicity], [Carcinogenicity], [Reproductive toxicity], [Specific target organ toxicity (single exposure)], [Specific target organ toxicity (repeated exposure)], [Aspiration hazard]

Not classified or classifications are not possible because of data lack.

## 12. Ecological information

No data on mixture is available. Data on each substance are shown.

Polyethylene:

No eco-toxicological information available.

GHS classifications as a mixture are shown below.

[Hazardous to the aquatic environment, short-term (acute)], [Hazardous to the aquatic environment, long-term (chronic)]

Classifications are not possible because of data lack.

[Harmful effects on the ozone layer]:

Classification is not possible because each of the substances is not described in Annex to Montreal Protocol.

## 13. Disposal considerations

pH of liquid waste after the measurement is 5.

Always dispose of in accordance with local regulations.

#### 14. Transport information

In addition to precautionary measures regarding handling and storage, avoid rough handling so as not to break containers. It is recommended to ship by air because under high temperature for long period may lead to deterioration.

UN classification and number: Not applicable  
Civil Aeronautics Act: Not applicable  
Fire Service Act: Not applicable  
Total weight of the product: ca.140 g/kit

#### 15. Regulatory information

Poisonous and Deleterious Substances Control Act: Not applicable  
PRTR Act: Not applicable  
Industrial Safety and Health Act: Applicable  
This product contains more than 1% of Sulfanilic Acid.  
“Cabinet order, article18, shall be indicated the Name of the substance, #2”  
“Cabinet order, article18-2, shall be notified the Name of the substance, #2”
